Subject: Leviathan Mine - Revegetation Treatability Study September Status Update

Lynda,

On behalf of Atlantic Richfield, this email provides the September status update for the Revegetation Treatability Study (RTS) as requested by the U.S. EPA in their July 7, 2016 letter providing comment to the *Focused Feasibility Study Revegetation Treatability Study Work Plan, Leviathan Mine Site, Alpine County, California, dated March 31, 2016*.

Atlantic Richfield received and analyzed the revegetation baseline characterization data and completed sampling for the Hydrology Plots. Based on the baseline characterization results, amendments have been ordered, and plot construction is anticipated for early October.

Atlantic Richfield also finalized the RTS Work Plan incorporating U.S. EPA and Stakeholder comments, and submitted a response to comments table and Final RTS Work Plan to you on September 9, 2016.

Should you have any questions or comments please contact Tony Brown at (714) 228-6770 or anthony.brown@bp.com.

Thanks,

Marc
